

**Rosa Ho Man CHAN**

**Professor, Department of Electrical Engineering**

**City University of Hong Kong**

**Professor Rosa H. M. CHAN** is a Professor in the Department of Electrical Engineering at City University of Hong Kong. Her research spans computational neuroscience, neural engineering, and multimodal sensing, with applications in health monitoring, sports performance, and rehabilitation. She received her Ph.D. in Biomedical Engineering (2011) from the University of Southern California, along with M.S. degrees in Biomedical Engineering, Electrical Engineering, and Aerospace Engineering. Dr. Chan is a co-recipient of the 2013 IEEE TNSRE Outstanding Paper Award and was elected as Asia Pacific Representative (2018-22) and Vice-President (2024-25) of the IEEE Engineering in Medicine and Biology Society.
